ABOUT

I'm a product designer in San Diego. When I'm not designing I'm outside: on a trail, in a museum, or working out where the light will be in an hour.

I started shooting film because a friend showed me one of her photographs and something in it pulled at me. I needed to know what it was. It turned out to be the imperfection: the grain, the way film reacts to light, the small failures my phone politely edits out.

Fourteen countries so far. What I want out of a frame is the feeling of being somewhere else. Quiet, but not still.
